Message from the Pro Vice-Chancellor

I would like to invite you to embark on a global study experience with Monash University Malaysia. Located close to one of Southeast Asia's most vibrant cities, Kuala Lumpur, Monash University Malaysia is the main international campus of Australia's largest university.

Monash University is a member of Australia's prestigious 'Group of Eight' of research-intensive universities and consistently ranks in the top 100 universities in the world. Here in Malaysia we are Monash University's platform for educational and research excellence in Southeast Asia and beyond.

Students at Monash University Malaysia receive a world-class Australian education while studying in a dynamic and innovative Malaysian environment. As we move into our twentieth year of operation in Malaysia, we are proud that the Ministry of Higher Education has placed us in the very top cohort of Malaysian universities with a six-star "outstanding" rating.

I firmly believe that there is no better way to enhance your study experience than by spending time at another university abroad. I can guarantee that an international study experience in Malaysia will give you new skills and new aspirations. At times you will be moving out of your comfort zone and dealing with quite different perspectives. But don't let that discourage you, because those more challenging times are exactly when the best cross-cultural learning occurs.

Kuala Lumpur is a global hub for business, education and tourism. I am committed to embedding that cosmopolitan spirit in our world-class education programs. We will provide you with an excellent opportunity to nurture your academic and intellectual development in our very transnational learning environment. You will be joining students from more than 70 other countries.

I encourage you to spend some time learning about our University and the subject areas available to you. And don't forget to explore the amazing travel destinations that are just one or two hours flight away from Kuala Lumpur.

I look forward to welcoming you to Monash University Malaysia!

Professor Andrew Walker

President & Pro Vice-Chancellor

What our exchange students say

▶ “Studying in Kuala Lumpur was experiencing globalisation with a uniquely Malaysian twist. Just like how Malaysia’s cuisine is diverse, the courses I took here were too. We had teachers from various cultural backgrounds and different teaching methods. In one unit we had 14 students and in another, more than 100. Labs, lectures, tutorials and field trips were all part of the learning experience. I had a great time at Monash.”

MAX VAN DEURSEN

Exchange student from Leiden University, Netherlands

▶ “Studying at Monash Malaysia was one of the best experiences I have had so far in my life. I love to travel, immerse myself in new cultures, meet people from all around the world, and get challenged every day. My time at Malaysia has definitely satisfied all of these interests. I have been able to travel to several countries in Southeast Asia and meet a bunch of amazing people I will never forget. It is hard to describe how I feel about my exchange; the only way for you to understand the way I feel is to go on one yourself!”

SABRINA BENNIS *(right)*

Exchange student from University of Warwick, UK

▶ “I met a lot of interesting people from all over the world during my exchange who influenced my time here, and probably my life, in a very positive way. We shared incomparable memories, awesome moments and some sad ones, but they all strengthened the bond between us and widened our personal horizons. None of my days here were boring. If you want to discover new cultures and at the same time overcome your personal barriers, Malaysia is a very good place to study abroad.”

SAHAR RAHIMI

Exchange student from Fachhochschule Münster, Germany

Life at Monash

Set foot on our campus and you will feel the welcoming vibe of a diverse and inclusive student community. As an exchange student at Monash Malaysia, you will be studying with friends from more than 75 countries in a dynamic and supportive environment where you will be encouraged to thrive. Take full advantage of the unparalleled academic support and exciting recreational activities available to you, immerse yourself in the Malaysian culture, and shape an incredible exchange experience that you will never forget.

Clubs and Societies

Photo by MONGA

Athletics

Whether you are an accomplished athlete, a beginner looking to try something new or somewhere in between, Monash offers a range of sporting activities where you can work up a sweat. You will find indoor courts for badminton and outdoor courts for futsal, basketball and handball at the Monash Sports Centre.

Clubs and Societies

Joining a community is the easiest way to meet new friends and unwind after hitting the books. With over 50 student-run clubs and societies of varied interests on campus, you will be spoilt for choice. Find out more at musa.monash.edu.my

Library and Learning Commons

Our library has an extensive collection and online resources where you can find just about anything you'll need in your learning and research journey. You can also sign up for workshops to brush up on skills like research, writing, citing and referencing practices. Find out more at monash.edu.my/library

Public Lectures

There's always more to learn. The Sir John Monash Lectures and the Jeffrey Cheah Distinguished Speakers Series are public events where you can engage with high-profile thinkers, leaders, policymakers, academics and experts on a wide variety of topics.

Research

Monash is a research-intensive university and we attract ambitious researchers from all over the world. While our vision is global, we also have particular expertise in regional issues, both within western and Islamic intellectual spheres. Our researchers have expert focus in tropical medicine, engineering, Halal ecosystems, social and economic transformations in Asia, and more.

Six reasons to study at Monash Malaysia

1 World-class university

Monash is ranked in the world's top 1% of universities worldwide. Monash Malaysia is the University's first international campus, and we serve as a platform for scholarly engagement with Southeast Asia.

2 Wide range of courses

You can choose to do just about any subject, from arts and business to science and psychology.

3 Full campus experience

We are a full-fledged campus with a wide range of events and activities throughout the year.

4 Genuine international university

Monash offers you a truly international experience and unique collaborations.

5 Exciting cosmopolitan lifestyle

Every day, you will meet people of different cultures from all around the world. There is a huge variety of entertainment options and considerable freedom of the spirit.

6 Dedicated support staff

Our Monash Abroad office is here to help with your whole study abroad and exchange experience – from processing your application to helping you throughout your stay.

Accommodation

It can be stressful trying to find the perfect place to call your own while studying abroad, which is why we have made it easy for you with Sunway Monash Residence – a premium condominium-style student accommodation with modern living spaces that is just a stone's throw away from Monash. Living on-campus will immerse you in campus life. Not only is it just incredibly convenient to get to class, you'll be living with other exchange, international and local students which will help you expand your social circle.

If you choose to live off-campus, we can recommend accommodation in the vicinity of the university. Visit this link to start: monash.edu.my/student-life/accommodation

	Sunway Monash Residence
Room	Single
Air-Conditioned	Yes
Distance	Within campus grounds
Features	Bed, wardrobe, study table and chair, notice board, book rack, mini fridge, LCD TV (single), side table (ensuite), and Wifi
Unit Layout	Eight bedrooms, three bathrooms, two washrooms, living area and pantry
General Facilities	Swimming pool, basketball court, gymnasium, complimentary laundry, 24-hour convenience store, cafe, BBQ pit, par course, study area, shuttle bus service, covered elevated walkway, guest rooms (chargeable), and 24-hour security
Maximum occupancy	2250 rooms
Rental (5 months)	RM5750
Deposit	RM1500
Processing fee (non-refundable)	RM300

Living in Sunway City

Our campus is located in Sunway City, a safe and well-connected township where you'll have everything you need within reach. Spend a hot day at a water theme park, take a break from your studies and enjoy some retail therapy, or check out the various eateries around the area – all easily accessed using the elevated pedestrian walkway or public transportation. Hotels, banks and a medical centre are also just minutes away from campus.

Places to Eat

Our cafeteria offers a wide selection of freshly prepared meals daily, ranging from Asian rice and noodles, Western-style burgers and sandwiches, Malaysian hawker-inspired eats, to vegetarian options. You'll also find brands like Boost Juice and The Coffee Bean & Tea Leaf on campus. During longer breaks, explore more eateries just across the road or at the Sunway Pyramid shopping mall. Most major global food outlets can be found in Malaysia.

How to Get Here

Airport Transfer

The most convenient way to travel from the Kuala Lumpur International Airport (KLIA) is by taxi or GrabCar, Malaysia's leading ride-hailing service. The KLIA Express train service is a lower priced alternative, and it makes a direct journey to KL Sentral in 28 minutes.

Within Sunway City

The Sunway BRT electric bus service will take you from campus to key locations including a medical centre, shopping mall, theme park, restaurants and cafes, and private residences. It'll also put you in walking distance to KTM and LRT train services.

From KL Sentral

KL Sentral is the country's largest transit hub and is home to an integrated rail transportation centre. From here, take the KTM train to Setia Jaya station or the Light Rapid Transit (LRT) train to USJ7 station and make a transfer to the Bus Rapid Transit (BRT) system. Monash has a dedicated stop on the Sunway line.

City Transport

The nearest LRT stop to Monash is the USJ7 station, just four minutes away by BRT. The LRT will connect you to hotspots in and around Greater Kuala Lumpur, including Petaling Jaya, KL Sentral, the Petronas Twin Towers, and other parts of the city's central business district.

Welcome to Malaysia

As soon as you arrive in Malaysia, you will see that it is a country of energetic, friendly and culturally diverse people. Bordering Thailand to the north, Singapore to the south and Indonesia to the south east, Malaysia is located at the crossroads of Southeast Asia. Its strategic position between the Straits of Malacca and the South China Sea made it a historic trading centre, absorbing influences from China, India and colonising western powers, most notably Britain.

As a result, the country's mix of Malays, Chinese, Indians and indigenous people has produced a society that is rich in traditional and modern influences, reflected in its many languages, religions and food options. You will find no shortage of tempting gastronomical choices and colourful festivals to experience.

Geographically, the country is just as varied as its culture and you will have ample opportunity to explore Malaysia with its contrasting corners. Apart from being a metropolitan centre with a modern economy, Malaysia possesses a rich history amidst vast natural rainforests. Several UNESCO World Heritage Sites are present here, including the Kinabalu Park and Mulu National Park in Borneo, and the historical cities of Melaka and Georgetown in the peninsula. In the capital city, the iconic Petronas Twin Towers render a stunning skyline for Kuala Lumpur.

All in all, you will always have places to go, people to meet and treasures to discover.

Fun Facts

- Greco-Roman geographer Ptolemy first named our country Aurea Chersonesus, which means 'peninsula of gold'. The name was found in Ptolemy's book Geographia, written around A.D. 150.
- Spanning over 743,000 km², the Borneo Island is shared between Sabah, Sarawak, Brunei, and Indonesia. It is actually the third largest island in the world, after Greenland and Papua New Guinea.
- Malaysia's total highway length is longer than the Earth's circumference.
- Few places can be described as 'a country of two halves' quite like Malaysia. West Malaysia covers the Malay Peninsula and East Malaysia consists of Sabah and Sarawak, which shares landmass with Indonesia and Brunei.
- Malaysia is home to the largest flower known as the Rafflesia. When blooming, the flower emits a putrid stench, giving rise to its nickname 'corpse flower.' The odour attracts flies, leading to pollination.

Why Malaysia?

Food

We are huge on our food culture. Malaysia is one of those countries where if you find yourself hungry at three in the morning, there are bound to be places still open for service! We often describe ourselves as a 'big melting pot', and our delicious food reflects the multi-ethnic makeup of our population.

Accessibility

You will find it easy to use our public transport network system to get around town. Otherwise, there are ridesharing apps which you can rely on. Apart from the Kuala Lumpur International Airport, there is also the Subang Skypark Terminal to get you in and out of the country!

Affordability

The cost of living in Malaysia is comparatively much lower than that of Western countries and Japan. On a reasonable budget, you can cover your living and entertainment costs, and have money left to travel.

Weather

Malaysia enjoys tropical weather all year round where it is hot and humid, interspersed with tropical rain showers. The climate is very pleasant and the weather is characterised by warm sunny days and slightly cooler nights, making Malaysia a great place to live.

Stunning landscapes

You will fall in love with our beaches, rainforests, islands and natural monuments. We are also home to four UNESCO World Heritage Sites. Wherever you choose to go, there will always be something to keep you occupied every week!

UNESCO World Heritage Sites

- Lenggong Valley
- Gunung Mulu, Sarawak
- Kinabalu Park, Sabah
- Melaka and Georgetown

Islands you must visit

- Langkawi
- Pangkor
- Redang
- Perhentian
- Tioman
- Mabul
- Sipadan

Global intercampus program

If you are a Monash Australia student who would like to study at Monash Malaysia for a semester or two, it can be easily arranged. You will remain enrolled at your home campus and receive credit for your overseas study towards your Monash degree while continuing to pay your regular fees. All your units taken in Monash Malaysia will be listed on your academic transcript, similar to Monash Australia, with the only difference being your exchange experience in vibrant, captivating and exotic Malaysia.

Please enquire more at the Monash Abroad office in Australia.

Entry Requirements

To be eligible to participate, you must have, at the time of your application:

- completed at least 18 credit points of your course at Monash (double degree Engineering students should consult with a Faculty Exchange Adviser)
- good academic standing (please check with the Monash Abroad office)
- your overseas study plan approved by your faculty (or faculties for double degree students) so that you receive credit towards your degree
- selected units that will ensure you are doing a full-time load of on-campus units (18 or 24 credit points).

If you're an Engineering or Law student, there are special conditions you must meet before you're eligible to apply. Please consult Monash Abroad.

How To Apply

Step 1: Prepare your proposed study plan for units you'd like to study at Monash Malaysia

Step 2: Submit an online application to study at Monash Malaysia via the Monash Abroad Portal (MAP)

Application Deadlines

Application type	Semester	Complete application in MAP
All Global Intercampus Programs	One	3 October
	Two	31 March

Financial Information

We understand that cost is a key factor when you decide on your exchange destination. Reasonable cost of living and affordable tuition fees are some of the advantages of studying at Monash Malaysia.

Please check with the Monash Abroad office on financial assistance that may be available to you: monash.edu.my/study-abroad/inbound/financial

Student Pass and Visa

Please see page 13 for more information on the Student Pass and visa requirements.

Other Study Options

Monash Malaysia offers short-term summer or winter programs. Click through to the school/faculty websites for program offerings and how to apply. Please contact Monash Abroad if you have any queries.

“Choosing to go on an exchange at Monash Malaysia is one of the best decisions you can make! Monash has an incredibly diverse student population, leading to an abundance of cultural experiences that I greatly enjoyed. Studying here also helped me to broaden my perspective on global issues regarding gender, nationality and the environment.”

ANNA ASAI

Exchange student from Kobe City University of Foreign Studies, Japan

Our study abroad programs

No matter where you're from, we welcome you to Monash. You can come for just one semester or up to three, at a Monash campus of your choice. We make it easy for you, from helping you find the right course, to streamlining your visa application and pre-approving your units.

How It Works

When you study abroad at Monash you will have access to the same academics and services as a local Monash student. In fact, you might even have the benefit of special packages, which may include excursions. Study Abroad is a fee-paying program, with fees paid per semester.

- You must enrol in full-time study (18-24 credit points)
- You can choose from Flexible or Specialised unit streams (see below)
- You will get a Monash academic transcript with grades upon completion
- Get guaranteed on-campus accommodation at Monash Clayton
- Have access to a 24-hour emergency telephone service
- Attend our Monash Abroad orientation so you can get the best start at Monash
- Enjoy a free pick-up service from the airport on arrival

Our exchange program

If your home university has an exchange agreement with Monash, you can come in as an Exchange student. That means you don't have to pay Monash tuition fees. You can continue paying fees to your home university and study at any Monash campus of your choice – as long as you meet the pre-requisites.

How It Works

Being an Exchange student means you'll enjoy a faster and smoother application process. As an Exchange student, you can apply to study for one or two semesters at Monash. You'll have access to the same academics and services as a local Monash student, as well as additional programs to help you settle in.

- You must enrol in full-time study (18-24 credit points)
- You can apply for on-campus accommodation at Monash Clayton, Peninsula or Monash Malaysia
- You can attend our Monash Abroad orientation specially for Exchange and Study Abroad students
- You will receive support and services while you are with us
- Upon completion, you will get an official graded Monash academic transcript.

Our Exchange Partners

We have reciprocal student exchange arrangements with institutions from all over the world. Enquire with your study abroad and exchange office if your home institution is an exchange partner. Visit monash.edu/study-abroad/partners to see our list of partners.

Things you need to know

Courses and Units

At Monash, degrees are referred to as courses and subjects are referred to as units. Students take a series of units as part of their course. As a Study Abroad or Exchange student, you can select from over 6000 coursework units at Monash. You may use the following link to search the Monash handbook for courses offered: monash.edu/pubs/handbooks.

Exceptions apply in some areas, so please refer to the Monash Abroad website for details: monash.edu.my/study-abroad/inbound/how-to-apply/study-options-fee-paying-study-abroad

Language of Instruction

Academic instruction is conducted in English at all Monash campuses.

Academic Year

The academic year runs from the end of February to the beginning of November and is divided into two semesters, each with a mid-semester break:

Semester 1: late February to June

Semester 2: late July to November

Each semester has 12 weeks of classes and the majority of classes have three to four contact hours per week per unit. These are followed by a three week exam period. You must study a full-time load of on-campus units while at Monash. This is normally 24 credit points made up of four units or 18 credit points to satisfy visa regulations.

For more information on the key dates, please visit monash.edu.my/study-abroad/inbound/key-dates.

Assessment

Assessment may be made up of written or oral assignments (or tests) throughout the semester and/or an exam at the end of each semester.

Eligibility Requirements

Before you apply to come to Monash, you should ensure you meet the following entry requirements. You must have:

- completed at least one full year (half year for postgraduate) at your home university
- achieved a minimum GPA of 3.0 or 60 per cent or equivalent
- met Monash English language requirements (monash.edu/admissions/english-language-requirements).

Monash Study Abroad and Exchange is also available to postgraduate students.

How to Apply

- For exchange applicants, you'll need to be nominated by your home university, after which you will be invited to apply by Monash Abroad.
- For fee-paying study abroad applicants, your study abroad agent or home university may be able to help you complete the application. Get in touch with them to find out more. You can also apply directly with us.

Please refer to the step-by-step guide and checklist in the Monash Abroad application form for incoming students, which can be downloaded from monash.edu.my/study-abroad/inbound/how-to-apply.

Application Deadlines

Study at Monash from	February to June	July to November
Submit your application by	1 October	1 March

Please email mum.monashabroad@monash.edu for an extension if you cannot meet these deadlines.

Tuition Fees

If you are a study abroad student, you will pay your fees to Monash Malaysia (or your home university) for the units (subjects) you study while you are at Monash. Exchange students do not need to pay additional tuition fees.

For more information on the latest tuition fees, please check monash.edu.my/study-abroad/inbound/financial.

Student Pass and Visa

(applicable to all exchange and study abroad students)

Before entering Malaysia, all international students require a Student Pass and possibly an entry visa depending on your country of origin. There are different requirements and application processes, therefore, it is important to understand the travel requirements to Malaysia.

You are required to pay the Student Pass application fee for one semester or for two semesters in full, depending on the duration of your study, upon accepting your exchange or study abroad offer. The fee includes the following:

- Processing fee
- Student Pass fee
- Medical and health insurance
- Health screening
- i-Kad

** You are advised to be certain in accepting your exchange or study abroad offer as the Student Pass application fee is non-refundable.*

Within seven days of arriving in Malaysia, you will have to undergo a post-arrival medical screening and submit your passport to the International Student Pass office at Monash Malaysia for an official Student Pass endorsement in your passport, which allows for multiple entries into Malaysia. This is a compulsory requirement of the Malaysian Immigration authorities.

Please ensure you are familiar with the Student Pass and visa requirements before arriving in Malaysia. For more information, visit monash.edu.my/study-abroad/inbound/how-to-apply/student-pass-visas.

Results – Reading Your Marks

The following table provides a key to results on the academic record (transcript) according to the year of study. You should also refer to the Monash University Grading Scale Policy at monash.edu/_data/assets/pdf_file/0009/801792/Grading-Scale-Policy.pdf.

Mobility internship program

Increase your marketability with international work experience.

Employers are looking for graduates with a global perspective. An internship abroad offers professional work experience and adventure rolled into one. You will go home with a deeper understanding of different workplace cultures, expanded networks, enhanced communication skills and a boosted CV, all leading to that next career step.

You must express your interest in an internship with the exchange in Malaysia at the point of application. The internship will be aligned with your major/course at your home institution, and usually ranges between three to six months.

Your internship will commence at the end of your semester(s) with Monash Malaysia. There are three options for you to consider:

- Complete a semester of study with Monash Malaysia (July – December) followed by a semester of internship in Malaysia (January – June)
- Complete a semester of study with Monash Malaysia (February – June) followed by a semester of internship (July – December)
- Complete two semesters of studies with Monash Malaysia (July – November) and (March – June) followed by an internship during the summer break between December and February.

Eligibility Requirements

- You must have a minimum GPA of 3.0 or a score of 60% or equivalent
- You must be able to commit full-time (up to 40 working hours per week).

What can you study?

As long as you have the necessary academic background and satisfy the pre-requisites, you can enrol in almost any of the units (subjects) offered at Monash Malaysia. We encourage you to undertake multidisciplinary studies by selecting units across different study areas.

Below are some areas of study and interesting units that you can consider. For the latest and complete list of unit offerings and details (e.g. level of study, credit points, syllabus), please check monash.edu/pubs/handbooks. Please also refer to the Handbook to ensure that the units you select are offered at the Malaysian campus and in the particular semester that you will be at Monash Malaysia.

Arts and Social Sciences

- AMG5382 Contemporary issues in Asia

- TRC4901 Artificial intelligence for engineers

Information Technology

- FIT1008 Introduction to computer science
- FIT1043 Introduction to data science
- FIT1045 Algorithms and programming fundamentals in python
- FIT1047 Introduction to computer systems, networks and security
- FIT1055 IT professional practice
- FIT1051 Programming fundamentals in java

FIT2004 Algorithms and data structures
 FIT2014 Theory of computation
 FIT2081 Mobile application development
 FIT2086 Modelling for data analysis
 FIT2093 Introduction to cyber security
 FIT2099 Object oriented design and implementation
 FIT2100 Operating systems
 FIT2101 Software engineering process and management
 FIT2102 Programming paradigms
 FIT2107 Software quality and testing
 FIT3003 Business intelligence and data warehousing
 FIT3031 Network security
 FIT3077 Software engineering: Architecture and design
 FIT3080 Intelligent systems
 FIT3081 Image processing
 FIT3134 Entrepreneurship
 FIT3143 Parallel computing
 FIT3152 Data analytics
 FIT3155 Advanced data structures and algorithms
 FIT3159 Computer architecture
 FIT3171 Databases
 FIT3175 Usability
 FIT3179 Data visualisation
 FIT3181 Deep learning
 MAT1830 Discrete mathematics for computer science
 MAT1841 Continuous mathematics for computer science
 FIT5057 Project management
 FIT5088 Information and knowledge management systems
 FIT5094 IT for management decision making
 FIT5101 Enterprise systems
 FIT5133 Enterprise architecture and management
 FIT5148 Big data management and processing
 FIT5160 Business process modelling, design and simulation
 FIT5195 Business intelligence and data warehousing
 FIT9123 Introduction to business information systems
 FIT9130 Systems analysis and design

Psychology

PSY2042 Personality and social psychology
 PSY2112 Organisational psychology
 PSY3032 Abnormal psychology
 PSY3150 Contemporary social psychology
 PSY3250 Positive psychology
 PSY2061 Biological psychology
 PSY2071 Developmental psychology

Science

BIO1011 Blueprints for life
 BIO1022 Life on earth
 BIO2810 Tropical ecology
 BIO3800 Tropical environmental management
 BIO3810 Tropical aquatic biology
 BIO3820 Tropical terrestrial biology
 BTH1802 Fundamentals of biotechnology
 BTH2732 Recombinant DNA technology
 BTH2741 Biochemistry
 BTH2752 Cellular metabolism
 BTH2820 Crop science
 BTH2830 Fundamentals of microbiology
 BTH3722 Medical microbiology
 BTH3732 Environmental microbiology
 BTH3752 Molecular biology and biotechnology
 BTH3820 Plant biotechnology
 CHM1051 Chemistry 1 advanced
 CHM1052 Chemistry 2 advanced
 CHM2911 Inorganic and organic chemistry
 CHM2922 Spectroscopy and analytical chemistry
 CHM2962 Food chemistry
 ENV1800 Environmental science: A Southeast Asian perspective
 ENV2726 Ecosystems and bioresources
 FST1800 Fundamentals of food and sensory science
 FST1911 Introduction to nutrition
 FST2810 Food bioprocess technology
 FST3711 Food and industrial microbiology
 GEN2041 Foundation of genetics
 GEN2052 Genomics and population genetics
 GEN3040 Medical and forensic genetics
 GEN3051 Genomics and its applications
 PHY2810 Physiology of human body systems
 PHY2820 Physiology of human health
 SCI1020 Introduction to statistical reasoning
 SCI1800 Introduction to environmental sustainability
 SCI2010 Scientific practice and communication
 STA2216 Data analysis for science

CONTACT US

Business hours

Monday to Friday 8.30am – 5.30pm

Counselling hours for course enquiries

Monday to Friday 8.30am – 5.30pm

Closed on weekends and public holidays.
